The above-listed prior arts A through E are all cited in the International Search Report completed on May 20, 2004 to the PCT Application No. PCT/JP03/16221 upon which the above-identified U.S. application is filed. A copy of the International Search Report is enclosed. A copy of the International Preliminary Report on Patentability is also enclosed.

Though the prior art A through E are not in the English language, the International Search Report is written in English and the degree of relevance is indicated therein by way of the markings of Y's and A's along with the explanation of such markings. Accordingly, pursuant to MPEP Section 609, the requirement for a concise explanation of relevance for this non-English language prior art is satisfied and an English concise explanation thereof is omitted herein. Nonetheless, an English language abstract is attached to each one of these non-English prior art except the prior art A.

The prior art F is not in the English language but it is referred to as "The reference 1" on page 1 of the specification and the concise explanation of the relevance is incorporated and described therein.

It is, therefore, hereby respectfully requested that the Patent Office make a record of these relevant arts and consider them during the examination.

Respectfully submitted,
